

STATE REPRESENTATIVE DAVE WOLKINS

2020 Legislative Survey Results

1. The legislature recently set a target for local schools to spend at least 85 percent of state tuition support toward classroom and instructional expenses. If a school corporation does not meet this target, they must provide an explanation to the state, school board and on their website. Do you think this fiscal transparency measure will help school administrators find efficiencies and streamline operations?

2. The state sends a total of \$7.3 billion in education funding directly to local schools – this figure does NOT include federal and local property tax dollars schools receive. This amount averages to over \$6,800 per student. The \$7.3 billion in state funding can be used for whatever educational purposes the school desires. Do you support increasing, decreasing or holding flat state education funding?

3. Currently, most units of local government, like schools, must buy newspaper advertising space for certain announcements, like budgets. Do you believe posting this information online as well as in a public building should replace this sometimes costly public notification requirement?

4. Do you believe Hoosiers who are legally permitted to possess a handgun should be able to carry a handgun in public without first applying for and obtaining a state-issued license? This proposal is often referred to as “constitutional carry.”

5. Do you support the legalization of medical marijuana?

6. Would you support raising the age to purchase tobacco to 21?
